TOOLSET IN WORKSHOP TROLLEY MECHANIC R2156 0005

The tool set together with the safe, clearly-arranged and mobile MECHANIC tool trolley in GEDORE red's black matt special edition provides an extensive basic equipment range for any workshop.

Three of the six drawers are pre-equipped in a practical manner with the foam modules of the 129-piece tool range which includes: 1/4" + 1/2" socket set including 2C-lever reversible ratchet, extension pieces and additional accessories, screwdriver, pliers, hammer and cutting tool set as well as a ring ratchet and double, open-ended spanner set.

1 Design Edition
 > Matt powder coating in elegant black

2 Mobile storage space
 > Six drawers, 3 pre-equipped,
 3 individually utilisable
 > An extra high drawer for
 large-sized tools

3 High loading capacity
 > A 210 kg max. load-bearing capacity
 > A 25 kg load-bearing capacity per drawer

4 Extensive tool assortment
 > 129-piece tool range for tightening
 and unscrewing a variety of screwed
 connections

5 Safe design
 > Strength-saving pulling and pushing
 > Considerable stability

All drawers are 482 mm wide and 345 mm deep. Each drawer has a 25 kg load bearing capacity and thanks to a full telescopic extension the entire contents of the drawer are visible. The two high, lower drawers can also hold large-sized tools and equipment.

The individual locking device - unlockable only by a concealed release bar - prevents the drawer being opened when the trolley is in motion. Drawers and their contents are additionally secured by a central locking system. Security is complemented by convenience. The special drive/steering handle and two large swivel castors ensure that pushing and pulling is no longer strenuous.
